

Practice Group Public Commercial Law and Public Procurement Law

Public procurement law is a particular focus of our advice. The practice group also deals with all questions of public commercial law, from state aid law and trade law to environmental and regulatory law. We also utilise our experience from numerous public procurement procedures in the construction sector in civil disputes relating to construction projects (construction defect and warranty litigation).

Our specialist fields

Public procurement law and construction contract law

- Project development and implementation
- Procurement procedures in accordance with the Federal Procurement Act (BVerG)
